Unit-2 : Lec-1

Active Listening

- ❖ **Active Listening -Meaning and art of listening -**
- ❖ **What is Listening** - Listening is the process of -
 - Receiving
 - Understanding
 - Evaluating the message
 - Translate it into meaning
 - Reacting/responding to the message
 - Sending feedback of about how much you could understand the message....

Active Listening

- ❖ **What is Active Listening** - Active listening is to listen to some speech or content with 100% accuracy and attentive mind.
- The kind of listening, in which the listener is totally focused and concentrated and 100% active towards what is being delivered to him. He, thus gives full attention and consequently, he grasps entire conversation.
- Hence we can say that active listening is-
- ❖ **Listening and responding to another person that improves mutual understanding.**

Active Listening

❖ Traits of a Good Listener -

- A good listener should be non-judgmental and non interrupting.
- He should have patience to listen to.
- He should be open minded, ready to listen to, and enthusiastic.
- He should be non partial and unprejudiced and unbiased.
- He should not be flighty/tensed or physically tired.
- He should be focused and concentrated.

Active Listening

- He should have some background knowledge of the subject matter.
- He should have some critical and analytical approach.
- He should pay attention to the non verbal gestures of the speaker and should establish proper eye contact with the speaker. He should read body language and feelings of the speaker
- He should remove all barriers and distractions as noise, distance etc, which may spoil the quality of message.
- He should be caring, understandable, objective and interested to listen.
- He should make a mental map of what is being delivered.

Active Listening

- ❖ **Listening Modes- Types of Listening** - Listening is of many types. Here are different modes of listening, discussed as under-
- ❖ **(1) Appreciative Listening** - This is a kind of provocative listening. The purpose of appreciative listening is-
 - To encourage the speaker to speak more.
 - To boost up the moral of the speaker.

Examples –

- (a)-When teacher encourages the student to speak more, on his/her first presentation.
- (b)When we scroll the play list of any singer, if we find any of his/her song melodious.

Active Listening

❖ **(2) Critical Thinking** - It is a kind of thinking, that involves-

- Analysis
- Critical thinking
- Judgement/Passing feedback/throwing verdict
- It is actually a kind of listening, in which we not only listen to speaker ,but also we have to check and judge-.
- What is being said
- How much relevant it is
- What is the impact/effect of the speaker....

Active Listening

Examples -

- In debate
- In interview
- In an upcoming election, while listening to some leader or manifesto of various political parties, we ultimately have to decide which one is the best to cast our vote for.

❖ (3) Empathetic Listening - In this kind of listening we listen -

- To know and understand the feelings/emotions of the speaker.
- to read the mood of the speaker...
- It is an ultimate kind of listening, in which we listen not only with our ears but with our heart and soul.

Active Listening

❖ **(4) Selective Listening** - In this kind of listening, the listener listen to only selective /particular/specific portion ,that is of his or interest.

➤ He ignores remaining part of the speech.

Examples-

➤ To listen to the news of your district from Aaj Tak.

➤ To listen to the Sports News Section amid Evening News.

➤ To listen to the particular train arrival timing /flight arrival amid announcement.

Active Listening

- ❖ **(5) Active Listening** - In this kind of listening, the listener is focused, attentive, concentrated and 100% active towards listening.
- He listens to every word with utmost care and grasps 100% meaning of what is being delivered to him. Consequently he answers to the questions and he also asks cross questions, where there is complications to him.
- He participates without any tension or diversion. His mind is not flighty, tensed or tired.
- This kind of listening is desirable to the professional world.

Active Listening

Examples -

- To listen to speech in the seminar.
- To listen to some group discussion/debate.
- To listen to the lecture if your favorite teacher.
- To listen to the questions, asked by the interviewer..
- To listen to the instructions of invigilator before appearing in some examination...

Active Listening

- ❖ **(6) Passive Listening** - In this kind of listening, the listeners mind is somewhat diverted or distracted. He is presented though, yet he may be mentally absent.
- This is not the least desirable because in this kind of listening, the listener listens hardly 10-20% of what is being delivered to him. He does not ask any question. He does not put forth any queries or doubts.

Examples -

- To listen to some joke..
- To listen to some comment, passing from busy road

Active Listening

❖ Techniques of active listening -

- To listen to actively needs to practice for 3 Rs. These are-
- **(1) Repeat-** Listen to some content again and again. Listen 3-5 times or until you grasp the meaning completely. You can listen to particular /selective portion repeatedly, which is rather difficult or rather incomprehensible.
- **(2) Reflect** - Whatever is heard, analyze and reflect well. Visualize and make a mental map of words, situations and descriptions..
- **(3) Respond** - Make yourself ready to react and to answer the possible questions, that may be asked.
- This way your horizons may be broadened which would help you to be an active and attentive listener.
